SELECTMEN'S REPORT

To the Tax Payers of the Town of Chester:

Your Selectmen desire to present a brief statement or report of their work for the year ending January 30, 1937. We would like to call to your attention that while we desire as much as any one to see the lowest possible tax rate, yet you should consider that in Chester there is each year an increasing depreciation of property values especially in standing wood and timber. During the past year much property of this kind has been disposed of and after any tract has been cut off it requires many years for anything of much value to grow. It is gratifying to notice during the year many of our people have improved the buildings by making minor repairs and painting; while this does not serve as any reason for increasing valuations for taxable purpose yet it does help to preserve their present value.

We are attempting in this year's annual report to give you a more detailed account of how your tax dollars are used for the administration of the town's business in the several divisions and we hope it meets with your approval. As you know the largest portion of our money is devoted to roads and schools but there are several other objects calling for smaller amounts and taken all together make up quite a substantial sum. There are always sure to be some demands for expenditure that are unexpected yet have to be met. At the last town meeting it was voted to raise and appropriate the money for construction of the Sandown road so there was no money borrowed for that and in consequence the town's debt was reduced by \$1,000.00.

At our last town meeting the amount of money raised for

town maintenance of highways was \$1,500.00 while we should have raised according to State requirements $\frac{1}{4}$ of one per cent of our ratable valuation. Previously we have raised \$2,000.00 for town roads so when the flood of last spring caused an extra expense of \$587.00 we having been cut \$500.00 from the usual amount left us wondering how the regular expense for caring of the roads could be met. As there has been no excessive snow bills we came through fairly well but of course there was not much that could be done in improving the roads as very little money was available.

This year we have had less cases on relief than last year and the amount expended was \$810.34 less; yet during the year we received only \$175.16 from the state and there is no information at this time of writing as to what may be expected during the year ensuing. We have had several employed on W.P.A. projects in nearby towns which has been much help to all. As we locally can not furnish from our relief rolls a sufficient number of men who can qualify for this federal work and thereby acquire a project of our own we are appreciative of what has been done for Chester through this out of town work. We are asking for \$1,200.00 this year as we are not sure what the state will do following June as the present relief law goes out of existence at that time.

(There was an emergency case in our town this last year that called for a substantial sum of money or a much larger saving could have been effected.)

Just a word about our Halls: as you note \$883.59 was the cost charged against the halls but this was the year when it was necessary to renew the insurance of both buildings and cost \$312.40 deducted from the whole amount making the regular maintenance \$571.19. There is no building in town that serves so many interests for the benefit of our people which is shown by the following. During the year the Halls have been opened for use 168 times serving the various organizations, Library and town officers; there were 39 occasions on which rent was collected. We have improved the

lights in the dining room and purchased a range for the kitchen. We found the old range unsafe it being a fire hazard. We also were required to have the furnace welded as it was defective beyond use. We feel these buildings should be kept in reasonably good repair so we recommend repainting the exterior at the same time making minor repairs incident to painting.

At our last meeting we voted \$500.00 for the Fire Department and it was expected this amount would finish the fire house and purchase a truck that could be used to carry a part of the fire hose but it required more than was estimated to complete the house and there was not enough money left to buy the needed outfit. Now that the building is completed the department is asking for money with which to get the truck, also provide for the regular expenses of the department. It is estimated that \$500.00 will be required.

The fire department is well organized and is a credit to our town and their performance merits our hearty support. We were called upon to appoint a new chief owing to the resignation of George Rand who has rendered valuable service to the department. Victor B. Spollett is the new chief and we believe he will be able to devote much interest and ably manage this department. The department is very grateful for a gift from the town of Sandown of \$75.00.

In concluding may we suggest that everyone acquaint themselves with the town's business that we may act with prudence and sane economy at the coming town meeting.

TO THE FIRE WARDENS OF CHESTER, N. H.

Your Fire Chief submits the following report of the Volunteer Fire Department for the last year:

Number of calls answered, 25.

Chimney fires 18, at which 7 were attended by apparatus.

Four sets of buildings; one in town, two in Sandown, and one in Auburn.

Two automobile fires. One attended by the apparatus.

One call for volunteer service in searching for a child lost in Raymond.

There was no loss of property resulting from the chimney fires.

The department is very grateful to the Town of Sandown for a check amounting to \$75.00.

The Fire House is now complete and we invite one and all to inspect it at any time. This building is for fire purposes and the Company holds its monthly meetings in the hall which is well suited to the needs of the department.

VICTOR B. SPOLLETT,
Fire Chief

WILCOMB—TOWNSEND HOME

During the last year the Trustees have given all matters pertaining to the affairs of the Wilcomb—Townsend Home, their careful attention. Much credit is due Mr. Lewis for his very efficient pains taken in care of the home and its various interests.

In the passing of Miss Jessie Waterman one of our fine women in the home, we have lost a friend who was ever active in promoting the interest of the home, church and community. Her earnest desire was to serve. We shall miss her and especially the young people whom she came in contact with.

The general health of all in the home is remarkably good.

We wish to acknowledge with gratitude the cooperation of the townspeople and others donating to the Wilcomb—Townsend Home fruits, vegetables and reading matter; one year's subscription of *Zion Herald* from Mrs. Whittier of Fremont; vegetables and year's subscription *Reader's Digest* from Mr. and Mrs. Farish G. Lewis; wreath from Bernice Richardson and Chester Allen; vegetables, year's supply of vinegar, year's subscription to the *Geographic Magazine*, Mr. Martin Mills; a generous supply of vegetables from Mr. Leighton; canned goods from Mr. Monish; tomatoes from Mr. Finnegan; vegetables for canning, M. W. Nichols; vegetables, Mr. Leroy Morse; a year's subscription of *Derry News* from a friend.

A cordial invitation is extended to all interested in the home to visit and help to make the home life pleasant.

REPORT OF THE SUPERINTENDENT

The Chester School Board:

The schools of this town are now well organized under the four-teacher plan which had to be adopted. The increased cost of High School tuition in the past three years has been almost \$1000. This is evidence of either increased population or an increase in the percent of pupils who desire a high school education; in either case it is a fortunate circumstance, and well worth the added expense.

There is, however, a very definite problem involved in this and possible future enlargement of pupil enrollment, because when the State Department of Education approved the plans for remodeling the primary building it accepted the present rooms only for about 25 pupils per room; but in September, 1936 it was found that the first six grades required room for about 64 pupils. This possibility was provided for in the plan by a temporary partition between the two rooms such that its removal will leave a 42 pupil room and a broad hallway in what was the original building. An addition of a similar room on the end toward the street can then convert the present structure into a modern school house with two standard sized rooms capable of accommodating 80 to 90 pupils.

In a conference with the Commissioner of Education an agreement was reached by which the present number may be carried another year but only on the assumption that the Chester School District takes action looking toward additional school room facilities before the school year 1938-1939 if the congested condition of this current-year is continued in 1937-1938.

High School enrollment has increased and there is every

indication that this will continue. State Aid will be less next year; these items more than account for the increase in tax-levy this year.

Superintendent of Schools
